**Facilitator(s):** *Dr. Florencia Gabriele*

Dr. Florencia Gabriele is an award-winning educator and researcher with a Ph.D. from Northeastern University. Dr. Gabriele has an extensive teaching portfolio, having taught at the graduate, undergraduate and pre-college level at institutions like Berklee College of Music and Emmanuel College. Recognized for her innovative pedagogical practices and her commitment to integrating technology into education, Dr. Gabriele excels in instructional design for in person and online learning environments. She actively contributes to academic discourse on diversity and inclusion. A prolific and engaging presenter and workshop leader across the globe, she has earned accolades such as the Best in Class award from the National Economics Teaching Association. Her expertise notably includes integrating technology into educational practices, enhancing her status as a sought-after academic and consultant. https://www.linkedin.com/in/florencia-gabriele

*Mr. Douglas Chrystall*

A seasoned technology entrepreneur, Douglas has been working in the software industry for over 20 years. With experience of working in large enterprises and has several successful startups under his belt, Douglas is an author of multiple patents. Currently living in Boston, Douglas' latest startup as the Founder of Truvideo, the vanguard AI communication platform for the service industry, with a rich technical background, he has spearheaded numerous prosperous software ventures including Imceda Software, acquired by Quest Software for $61m. Also a founder of Lingo Jingo which was a web-based platform that empowered educators to develop customized instructional plans and materials, effectively enhancing English language learning for K–12 students. With a knack for discerning the precise technological solution to business quandaries, he guides entities, from corporates to startups, in deploying straightforward, effective solutions. Douglas is an active member of the local IT community and enjoys assisting other entrepreneurs to become successful. Douglas studied entrepreneurship at Haas Business school Berkeley, CA. Douglas is extremely passionate about how IT can improve educational outcomes and works closely with local schools on the best use of technology. https://www.linkedin.com/in/douglaschrystall

**Objectives:**

**Contents:**
Join Dr. Florencia Gabriele and Douglas Chrystall for an engaging and practical talk on how to leverage the power of Artificial Intelligence to enhance your educational approach in teaching English as a Second Language. This session will explore the transformative potential of AI in all phases of classroom interaction: before, during, and after class.

Enhancing ESL Learning: Discover how AI can elevate effectiveness and engagement in your English classes. Whether you're looking to optimize lesson planning, improve interactive learning, or provide personalized education, this talk will offer valuable insights and practical tools for effectively integrating AI into your ESL teaching methodology.

Practical Demonstrations: Observe real examples of AI applications in ESL teaching, from automatic correction tools to interactive exercises that enhance pronunciation, listening comprehension, and writing.

Q&A Session: Get your questions answered directly by Florencia and Douglas in English and Spanish – as prefered

Why Attend?
Cutting-Edge Knowledge: Equip yourself with the latest strategies and tools to effectively integrate AI into your ESL teaching or administrative processes.

Networking Opportunities: Connect with other ESL educators, tech innovators, and thought leaders at the forefront of educational technology.

Practical Applications: Take away actionable ideas and tools that can be immediately implemented to improve the effectiveness of English teaching and student engagement.

Welcome coffee: 9:30 hs.
