Facilitator(s): *Nicholas Carlisle*

Nicholas Carlisle is a lawyer and family psychotherapist, creator of the No Bully programme and CEO of Power of Zero, an international non-profit organization to ensure the wellbeing of children in the digital age. With a background in human rights and child well-being, Nicholas is a seasoned keynote speaker and thought leader on student bullying and the impact of the digital age on the next generation. For more about Nicholas and to see his previous keynotes visit <https://www.nicholascarlisle.org/>

Objectives:

Contents: Student bullying and cyberbullying are some of the most painful and intractable challenges facing educators today. Bullying causes students real suffering and without intervention can result in lives lost or forever changed. Students who are different, e.g. because of their ability, ethnicity, socio-economic status or simply because they don't follow stereotypical gender norms, are particularly vulnerable. Most teachers and school leaders have never been trained in an effective system for how to respond.

Solution Team® gives teachers and school leaders an evidence-based solution to bullying. Educators trained in Solution Team® bring together the bullying students with three to four prosocial students and activate their empathy to end the bullying of one of their peers. Schools that use Solution Team® are able to solve 90% of incidents, making this one of the most impactful anti-bullying interventions available. Over time Solution Team® helps schools to develop a culture where students are more trusting of adult intervention, more willing to seek help and demonstrate greater kindness to each other.

Get trained! This one-day training prepares key staff to be the school's Solution Coaches, ready to run a Solution Team® for any student that is referred to them and help students who are entrenched in the role of bully or target to change their ways.

Participants will receive a copy of the Solution Coach® Handbook.
